

Urgent Call in support to Ashraf by “Gozareshgar” (“Reporter”)

Freedom lovers, human rights and political activists!

On Monday, public opinion around the world witnessed barbaric attack by Iraqi regime and its law enforcements (police and military) against people living in Ashraf. Until now, all reports sent from inside the city indicate 7 killed, hundreds injured and almost 50 arrestees. There have been coverage of this news by photos, video clips and other means of communication. Until now, injured cannot be treated by medical teams though it is forbidden for doctors to go inside and attend them.

Such attacks have crossed the borders of political lobbying and negotiations between states and governments; it is now a human catastrophe!

The barbaric attack of Iraqi government against defend less people living in Ashraf is in line with policies conducted by Islamic Republic of Iran against its political opponents in Iran and abroad. The truth is, no matter how we think of Mojahedins political agenda, policies and goals and whether we accept them or not, we can neither ignore nor close our eyes to an unjustified attack towards people in Ashraf.

The weaken Islamic Republic announce, on the mean while, its victorious emotions towards such incident and tries to reduce the shame on its face due to the actions they themselves have done against Iranians during the last few weeks. But the fact is, this jubilee causes them more shame and disgrace among citizens of the world.

We believe that no human being should be subjected to violence, killing and misconducts due to her beliefs and political goals. We believe that every human being is entitled to the rights to live free and as a human being. We believe that any state, organization etc, violate this rights should be condemned.

We, undersigned, demand:

<!--[if !supportLists]-->1. <!--[endif]-->All the arrestees should be released immediately.

<!--[if !supportLists]-->2. <!--[endif]-->All the injured should be treated and attended by medical professionals.

<!--[if !supportLists]-->3. <!--[endif]-->International organs responsible for lives of people living in Ashraf should immediately investigate misconducts and actions taken by Iraqi's police and military

<!--[if !supportLists]-->4. <!--[endif]-->International organs should have permanent representatives in Iraq and region in order to stop such catastrophic incidents to be repeated until all the people living in Ashraf being transferred to a safe third country.

We hope our joint action can prevent such catastrophe to happen again and by our joint action show that our support to the rights: to be respected as a human being, is a part of rights for any world citizen. This rights should not recognize any “if” and “but”.

Once again thanks for your support.
